OBJECTIVE

Recent software engineering graduate with over 3 years of experience in backend, frontend, and mobile application development.

Specialized in building API-driven platforms using PHP Laravel, with additional expertise in Flutter, JavaScript frameworks, and RESTful API integration.

Skilled in database management, Linux server deployment, and performance optimization.

Familiar with agile development tools such as Jira, having applied them in multiple projects. Strong foundation in software engineering principles, with a proven track record of delivering responsive, user-friendly applications.

Passionate about problem-solving, teamwork, and continuous learning.

EXPERIENCE

M3-Codes Team – Full Stack Developer (2022 – Present)

- Working with a freelance/open-source team on full-stack web & mobile projects using Laravel, Flutter & JavaScript.
- Key projects include a multilingual company website (Laravel-PostgreSQL) and *Solargg* solar calculator mobile app (Flutter & OpenStreetMap).

Internship – Intellium – Mobile App Developer (Flutter) (Aug 2024 – Oct 2024)

- Developed a Flutter mobile app integrated with .NET REST APIs as part of a 2-month R&D internship.
- Participated in feature development, testing, and bug fixing using Flutter, GetX, C#, and REST APIs.

EDUCATION

- **Firat University – B.Sc. in Software Engineering** – Elazığ, Türkiye (2021 – 2025)
- **High School Diploma** – Kahramanmaraş İmam Hatip High School – Türkiye (2018 – 2020)

VOLUNTEERING

TÜBİTAK (2209-A) – AI & Flutter Developer (2024)

Developing an AI-powered outfit suggestion app using deep learning (ResNet/Inception) and Flutter to analyze users' wardrobes and recommend daily combinations.

Scrum Master & Mobile Developer – Social Aid & Donation Platform (2024)

Led the agile development of a Flutter + C# donation app, digitizing social aid processes via secure API-based workflows.

PROJECTS

– Multilingual Company Website

(Freelance – [FormArchEnerji](#) – 2025)

Responsive web platform with admin/customer roles, segmentation (A/B/C) & discounts.

Tech: PHP Laravel, AWS S3, PostgreSQL, Markdown, Tailwind CSS, JS.

– Interactive Education Platform (Okulya)

(Academic/Personal – 2024)

Full-stack education system: courses, progress tracking, tasks, exam evaluation.

Backend: Laravel (Web, API), OAuth (JWT), Tailwind, Mobile: Flutter + GetX + Dio, Postman.

– Solargg – Solar Energy Calculator App

(Freelance – 2023)

Map-based app using 40k+ solar dataset (ROI, efficiency & CO₂).

Tech: Flutter, GetX, OpenStreetMap, Figma

– Airline Management System

(Academic/Personal – 2022)

All-in-one admin, staff & passenger platform.

Tech: Laravel (Web), Java/JFrame (Desktop), Flutter (Mobile)

SKILLS

Technical Skills:

- **Programming Languages:** PHP (Laravel), Dart (Flutter), JavaScript, Python , Java
- **Frameworks & Tools:** Laravel, Flutter & GetX & Dio, .NET, TailwindCSS, PostgreSQL, REST APIs
- **Dev Tools:** Git/GitHub, Jira, Postman, Figma, Roboflow, OpenCV

Testing & Deployment: PHPUnit, API testing (Postman), JWT Authentication, AWS S3

- **Other:** Object-Oriented Design, MVC, Scrum/Agile Development

Soft Skills: Teamwork & Collaboration ,Problem Solving & Analytical Thinking, Communication & Technical Writing, Leadership & Mentoring, Time Management & Adaptability

LANGUAGES

Fluent in **Arabic**; C1 proficiency in **Turkish**; B2 Upper-intermediate **English**

Other Information

Driver's License – B1 (Türkiye, 2025)

CERTIFICATIONS:

- **CEHI 01 & CEHI 02** – Fundamentals of Network Security (*Udemy*)
- **CJNP+ JAVA+** – Java Network Programming: Mastering TCP/IP (*Udemy*)
- **Computer Maintenance & Hardware Basics** (*Udemy*)
